

## Welcome to Whipkey's Music!

In these uncertain times, our Instrument Rental Process is **CONTACTLESS** but personal. It is important to have adult, professional musicians with Music Education and Performance Degrees who understand, and are ready, to support your student's musical needs. For over 35 years Whipkey's Music has served Cobb County and Metro Atlanta area music students. We adjust, repair and offer 10 minute tuning for our instruments, usually while you wait (curbside), to keep your child ready for practice.

We would like for you to know us and we will enjoy knowing you. Here's how it works!

- 1) If you like, please call **770-427-2277** or **770-422-8704** to tell us your specific needs, and we will personally and quickly guide you through our process and get your required materials. We want to make it clear and simple.
- 2) After our call, you can open the "fillable application form" on our website (<https://www.whipkeys.com>).
  - First, click the "Download Fillable Rental Application" link in the top center of the website homepage. You will be prompted for a security code.
  - Enter the code (*if you want to complete this at home we will give you the Security Code by phone*) and click on the "Download fillable Rental Application" link that is displayed.
- 3) You can fill out Part A on your computer, then print the application on standard 8.5"x11" paper. Bring the completed and signed form to the curbside at Whipkey's Music. You may stay in your car.
- 4) We will process your application, ask you to sign your contract and pay by the method you prefer.
- 5) We will then bring you the instrument and other chosen articles from your school list (method book, orchestral or band accessories like strings, shoulder rests, reeds, mouthpieces, etc.) while you safely wait. Masks required please.
